

One donor can save up to eight lives and enhance as many as 75 more.

A few facts...

- The first and foremost duty of health care professionals is to save a life. Only when a life cannot be saved does organ and tissue donation become an option.
- Everyone has the potential to be an organ and/or tissue donor regardless of age or health.
- All major religions support organ and tissue donation or respect an individual's choice.
- Organ and tissue donation should not impact funeral arrangements.
- Your donation decision will only be disclosed for the purpose of sharing your decision with your family.
- You can change or withdraw your consent to donate at any time.

You can register:

- Online at BeADonor.ca, or
- In person at any ServiceOntario centre, or
- By mailing the Gift of Life consent form

A signed donor card is not recorded in the Ministry of Health and Long-Term Care's database and may not be available when needed. Organ and tissue donor registration is the only secure and guaranteed way to make your decision to save lives be known.

Trillium Gift of Life Network is a not-for-profit agency of the Government of Ontario and is responsible for planning, promoting, coordinating and supporting organ and tissue donation across Ontario and improving the system so that more lives can be saved.
