Background

One of the critical elements supporting the ability of PSFDH to provide high quality patient and family centred care is the effective engagement of all stakeholders in the health care environment and within the community at large.

Purpose

This policy addresses the need for the Board of Directors, with the support of the Senior Leadership, to identify and review on a regular basis every two (2) years, its stakeholders, the nature of PSFDH's relationship and the role of the Board of Directors and its members.

Policy

The Liaison Committee is responsible for reviewing, identifying and categorizing stakeholders (see Appendix "A".)
