

## Diagnostic Imaging (Estimated) Wait Times

As of January 3, 2023

Test/Procedure	Estimated Wait Time	How are we doing?
<b>Elective General Ultrasound</b>	3 ½ months	Decrease from 4 months
<b>Echo (echocardiography)</b>	approximately 5 months	A new staff member joining the team mid-January will help to reduce this wait time.
<b>Diagnostic Mammography</b>	2 weeks	<i>status quo</i>
<b>Ontario Breast Screening Program (OBSP) Mammography</b>	approximately 8 weeks	A new staff member joining the team mid-February will help to reduce this wait time.
<b>CT urgent/semi-urgent</b>	No wait time	-
<b>Elective CT non contrast</b>	approximately 10 weeks	Increase from 8 weeks
<b>Elective CT with contrast</b>	approximately 8 weeks	Decrease from 12weeks
<b>General X-ray</b>	No wait time.	-
<b>Bone Mineral Densitometry (BMD)</b>	Wait time information not available.	BMD tests are performed on a limited basis due to staffing issues.
